## REQUEST TO SUBMIT A SINGLE HONORS THESIS IN TWO CONCENTRATIONS

Some students who decide to pursue Honors in two departments consider submitting a single thesis for both concentrations. If this is your intention then you must obtain prior permission from your thesis advisor **as well as** an Honors concentration advisor in both departments, and from a representative of the Honors Academic Board in the Honors Program office. The advisors should agree that the topic is intellectually viable from the perspective of each discipline, and agree upon the total length of the thesis work and number of credit hours to be awarded. A dual thesis should be substantially longer and more demanding than that required by a single department. Please complete this form and submit it to the Honors office in 1330 Mason Hall.
