DIRECTIONS

Please refer to the map to the right for directions to the Museum. If you are coming via US-23, please note that the Geddes Road exit from US-23 is often confusing to nonresidents, as signage is poor. We recommend using Exit 37B instead (Washtenaw Avenue Westbound). As you drive on Washtenaw, stay in the right lane to remain on Washtenaw where Stadium Boulevard splits off. Washtenaw intersects Geddes Avenue in about 2 miles.

PARKING OPTIONS

**Museum parking:** There are 7 visitor parking spots behind the Museum, accessed from the intersection of Church St. and Geddes Ave. These spots are labeled “Visitor and bus parking permit required.” A permit must be acquired from the Museum Store upon arrival and placed on the rear-view mirror, facing out. These spots are available on a first-come, first-served basis.

**Parking Structure:** There are two parking structures near the Museum. Palmer Structure ($1.40/hour) is located just north of the Museum. Forest Structure ($1.20/hour) is located south of the Museum. See the map below for exact locations.

**Parking for persons with disabilities:** Two metered spaces are available near the loading dock. A valid state-issued disability parking permit is required.

Please note that Geddes Rd. westbound becomes Fuller Rd at Huron Parkway. To get to Geddes Ave. westbound, turn left at Huron Parkway, and then turn left after the bridge at the Geddes Ave. sign.
