

University of Michigan, Department of Anthropology (<http://www.lsa.umich.edu/anthro>) invites applications for a tenure-track assistant professorship in biological anthropology beginning Fall 2010, pending final budgetary approval. We seek an anthropologist with research interests in infectious disease including its evolution, genetics and epidemiology, interactions of infectious diseases with demography, and evolutionary medicine. Scholars with doctorates in Anthropology, Public Health, Human Biology, and Biology (including cellular, organismal and genetics), and post-doctoral and faculty experience working collaboratively are preferred. This position is part of a cluster of hires that will bring together faculty from Psychology, Women's Studies, Anthropology, Nursing and Obstetrics/Gynecology with overlapping interests in STDs/HIV/AIDS. Successful candidates will be expected to establish an independent research program and have a commitment to undergraduate and graduate teaching in a four-field anthropology department, and have their PhD in hand by the position start date. This is a university-year appointment, with an expected start date of September 1, 2010. Please send **in hard copy only**: a letter of intent, curriculum vitae, a statement of current and future research plans, a statement of teaching philosophy and experience, evidence of teaching excellence, representative publications, and at least three letters of recommendation to Biological Anthropology Search Committee, University of Michigan, Department of Anthropology, 101 West Hall, 1085 S. University Ave, Ann Arbor, MI 48109-1107. **Applications are due by October 26th, 2009**. Please contact bioanthro-search@umich.edu if you have any questions about the position. The University of Michigan is an equal opportunity/affirmative action employer. Qualified women and minority candidates are encouraged to apply. The University is supportive of the needs of dual-career couples.
