June 07, 2007

Click here for important Summer Term 2007 Dates and Deadlines.

Welcome new LSA students! Prior to orientation, visit www.umich.edu/~newt/ to find out the "6 things to do before orientation." After Orientation, go to Advise Me Weekly: Advising Tips "After Orientation" if you have questions about:

- Changing Your Course Schedule
- Contacting Your Advisor
- Transferring Courses from Another School
- Determining AP Credit
- The First-year Reading Program
- Preparing for Fall Courses (including ordering books).

When the academic term begins go to Advise Me Weekly: Internships, Scholarship, Leadership, Jobs and More to learn about opportunities that will make the most of your LSA experience.

The Undergraduate Research Opportunity Program (UROP) creates research partnerships between first and second year students and University of Michigan faculty. All schools and colleges of the University of Michigan are active participants in UROP, thereby providing a wealth of research topics from which a student can choose. Begun in 1989 with 14 student/faculty partnerships, the program continues to grow, offering more first and second year students the opportunity to be part of an exciting research community. Today, approximately 900 students and over 600 faculty researchers are engaged in research partnerships.

Discovering the World of Research

undergraduate RESEARCH opportunities
Academic Advising is an **on-going conversation** between an advisor and a student that is aimed at attaining academic success and personal fulfillment.

big college. big opportunities. **great** advising center.

- empowerment and responsibility
- evolving ideas
- pre-professional advising
- degree options
- setting reasonable expectations
- options and resources
- informed choices
- encouragement and direction
- liberal arts and the workplace
- individual attention
are you intrepid and creative?
are you interested in multiple subjects?
cannot settle on ONE concentration?
do you want the flexibility of structuring your own interdisciplinary program?
