LSA GSI Class Size Policy

Overview

The UM|GEO Agreement requires all units that employ Graduate Student Instructors to publish GSI class size policies on their unit websites effective January 1, 2024. Per the contract, the policies should include both the maximum number of students in each section and the maximum ratio of students to GSIs. If you have any questions, please contact the LSA Senior Labor Relations Representative, Kamil Robakiewicz (kamil@umich.edu).

Policy

Per Article XVII: Class Size Section A.2 of the UM/GEO Agreement, each department employing GSIs will establish a class size policy for classes to which GSIs are assigned. LSA policy is that the maximum number of students per GSI section will not exceed 50 and the maximum ratio of students to GSIs will not exceed 100.
